- Express
- MongoDB
- Mocha/Chai
- SQLite
- PostgreSql
- Ionic
- AWS

Experience

Nashville Software School

Apr 2015 to Sep 2015

Apprentice Software Developer - Nashville, TN

Six-month intensive software training focused on modern full-stack technologies via individual and team projects. Here I learned about test-driven development and worked to acquire the skills necessary to build a site from front to back.

- [Minotaur vs. Robots](#): platform jumper game created using Phaser game engine, Javascript, HTML and Grunt.
- [Overton Orators](#): scheduling app designed to bring tech professionals in Nashville to speak to students at Overton High School's IT Academy. Created with Mongo, Express, Node, jQuery and Javascript.
- [Raindrops](#): mobile friendly weather app using the Forecast.io API. Created with Ionic, Node.js and AngularJS.

Tandem Realty

Mar 2014 to Mar 2015

Property Manager - Nashville, TN

- Processed tenant and owner requests for maintenance for a portfolio of 400+ properties.
- Met with local professionals and homeowners via networking and cold calling to discuss Tandem's home maintenance concierge service, "My Guy."

Community Involvement

- Volunteer, [Music City Code](#) (August 29, 2015)
- [Code for Nashville](#) (April 2015 - Present)

Education

Bachelor of Arts, Humanities
University of Colorado - Boulder, CO

2010
